#ComeToYourCensus

How to: 2020 Census

Filling out the Census is crucial. Your answers help our city recover from COVID-19, bring \$20,000 of vital resources into your neighborhoods, and ensure that your community is represented in government.

1.

Go online to my2020Census.gov *

You can also complete the Census by phone (in 13 languages) or by mail in English or Spanish.

2.

Fill out and submit the 9-question survey

It should take about 10 minutes. Answer for everyone living or staying in your household—even babies count. There is no citizenship question on the Census. Your answers are confidential and safe.

3.

Congratulations!

Your community just got \$20k for affordable housing, healthcare, schools, food assistance, public transportation, child care and senior centers, and more! You've also done your part to make sure your community gets the political representation it deserves.

* The Census officially ends **September 30**. You do not need a password, pin code, or a Census ID. Need help or computer access? Visit www.ComeToYourCensus.us
